

The Best Packing Solutions

Best Design  Best Quality

# STRAPPING MACHINES

MODEL - GP 101

## FULLY AUTOMATIC STRAPPING MACHINE

### FEATURES

- ✓ Compact Design
- ✓ Programmable Logic Controller based operation
- ✓ Maintenance free & Self Lubricating component
- ✓ Solid state Electrical
- ✓ Age hardened Rust proof aluminum Alloy Structural Components

MODEL GP 9010

MODEL GP L9010

MODEL GP 9010P

Model	Machine Dimension in mm	Machine weight in kg	Power Supply	Power consumption	Strap width in mm	Minimum package size in mm	Maximum package size in mm	Strapping speed	Strap coil size in mm
GP 101	1400 x 590 x 1500	180	380V 3 phase 50 HZ	1KW	9 ~ 15	80x80x80	W750 x W500	2sec	Dia 200
GP 9010	895 x 565 x 730	85	220V 1 phase 50 HZ	0.66KW	6 ~ 15	80x80x80	No Limit	1.5sec	Dia 200
GP L9010	1510 x 560 x 655	80	220V 1 phase 50 HZ	0.66KW	6 ~ 15	80x80x80	No Limit	1.5sec	Dia 200
GP 9010P	1700 x 2655 x 3930	100	220V 1 phase 50 HZ	0.66KW	6 ~ 15	80x80x80	No Limit	1.5sec	Dia 200

Pneumatic Operated Tool

Battery Operated Tool

# STRETCH WRAPPING MACHINES

**Pallet Stretch Wrapping**

## FEATURES

- ✓ Control System : PCB.
- ✓ Film carriage upward/downward speed is adjustable.
- ✓ Turn table speed is adjustable.
- ✓ Top wrapping cycles is adjustable from 0 to 9.
- ✓ Bottom wrapping cycle is adjustable from 0 to 9.
- ✓ Recycle wrapping round is adjustable from 0 to 9.
- ✓ Photocell censoring the pallet height.
- ✓ Precise phase stopping at cycle end.
- ✓ Manual control is available.

## TECHNICAL SPECIFICATION

Model	Machine Dimension in mm	Turn table diameter	Film reel inside diameter	Film reel outside diameter	Power Supply	Power consumption	Pre-stretch rate	Maximum packaging weight	Maximum package size in mm	Turn table speed
GP 4503	1510X2500X2600	1500 mm	75 mm	250 mm	220V 50HZ 1Phase	1.5 kw	250 to 300 %	2000 kg	L1200xW1200xH2100	1- 10 Cycle/Min

## FEATURES

- ✓ Provides an inexpensive method of protecting carton boxes and similar products from moisture and damage during transportation.
- ✓ Wraps using stretch cling film.
- ✓ Very high throughput – up to 120 packs per hour.
- ✓ Easy manipulation of load to provide bi-directional wrapping.
- ✓ Digital display of Stretch percentage, film consumption
- ✓ Suitable for Apparels, Garments, computer components, handicrafts and food products packed in Carton boxes.
- ✓ Optional - Pneumatic cylinder with top platen models.

**Carton Box Stretch Wrapping**

## TECHNICAL SPECIFICATION

Model	Machine Dimension in mm	Turn table diameter	Film reel inside diameter	Film reel outside diameter	Power Supply	Power consumption	Pre-stretch rate	Maximum packaging weight	Maximum package size in mm	Turn table speed
GP 4503C	1125X650X1050	900 mm	75 mm	250 mm	220V 50HZ 1Phase	0.75 kw	250 to 300 %	100 kg	L600xW600xH600	1- 20 rpm/M in

**Stretch Film**

**Hand Wrapper**

# SHRINK WRAPPING MACHINES

## FEATURES

**Shrink Tunnel**

- ✓ Works with all types of films
- ✓ Temperature compensation solid state regulator controls
- ✓ Roller conveyor with variable speed frequency drive
- ✓ Stainless steel top & side heaters
- ✓ Auto cut – off after temp reach sensor control

## TECHNICAL SPECIFICATION

Model	Voltage	Power Supply	Weight loading	Heat Tunnel size (mm)	Machine Dimension in mm	Conveyer Speed	Machine Weight
GP 4525A	220/380V 3 phase 50 HZ	6.5 KW	10 Kg	450 x 250	1200 x 700 x 1000	0 – 10M/ min	91 Kg
GP 4535LA	380V 3 phase 50 HZ	9.6 KW	30 Kg	450 x 350	1600 x 700 x 1100	0 – 10M/ min	120 Kg

**L – Sealer**

**Chamber Shrink Wrapping**

## TECHNICAL SPECIFICATION

Model	Voltage	Power Supply	Maximum sealing Dimension in mm	Machine Dimension in mm	Machine Weight
GP 5045L	220V 1 phase 50 Hz	1.2 KW	L500 X W450	L1400 X W700 X H1000	110 Kg
GP 7555L	220V 1 phase 50 Hz	1.5 KW	L750 X W550	L1830 X W780 X H1000	135 Kg
GP 5540	220V 1 phase 50 Hz	4 KW	L500 X W380 X H150	L1220 X W700 X H1070	130 Kg

**Shrink Film**

**Shrink Film**

**Heat Gun**

# CARTON SEALING MACHINES

MODEL GP 557R

## FULLY AUTOMATIC CARTON SEALING MACHINE (Random Carton Sealing Machine)

### FEATURES

- ✓ Full automatically adjustment for the width and height according to carton size
- ✓ Combine with production line to make a faster packing
- ✓ Automatic flaps closing and top & bottom sealing

MODEL GP 551SD

Top and Side Belt Drive

MODEL GP 552TB

Top and Bottom Belt Drive

MODEL GP 555F

Automatic Flap Closing

MODEL GP 556A

Automatic Carton Sealer

### TECHNICAL SPECIFICATION

Model	Machine Dimension in mm	Machine weight in kg	Power Supply	Air Pressure	Tape width in mm	Minimum package size in mm	Maximum package size in mm	Working speed	Table height in mm
GP 557R	1700 x 910 x 1570	250 Kg	220V 1 phase 50 Hz	5 Kg/cm <sup>2</sup>	48 ~ 72	200 x 150 x 150	600 x 500 x 500	750 carton/hr	650 ~ 800
GP 551SD & 552TB	1580 x 740 x 1330	145 Kg	220V 1 phase 50 Hz	Not Required	48 ~ 72	150 x 100 x 100	(L)No Limit x 500 x 500	20 m/min	580 ~ 880
GP 555F	1690 x 830 x 1180	200 Kg	220V 1 phase 50 Hz	5 Kg/cm <sup>2</sup>	48 ~ 72	200 x 150 x 120	600 x 500 x 500	18.5 m/min	650 ~ 800
GP 556A	1170 x 880 x 1150	200 Kg	220V 1 phase 50 Hz	5 Kg/cm <sup>2</sup>	48 ~ 72	200 x 200 x 200	(L)No Limit x 500 x 500	300 ~ 750 carton/hr	580 ~ 780

BOPP Tape

Tape Dispenser

# BAND SEALING MACHINES

MODEL GP 900V

Vertical Sealing

## FEATURES

- ✓ Easy to operate and maintain
- ✓ Conveyor can be lifted up and down as per the need
- ✓ Variable speed drive
- ✓ Robust construction
- ✓ Brass heater jaws for better bonding
- ✓ Geared motor
- ✓ Temperature controller

MODEL GP 900H

Horizontal Sealing

## TECHNICAL SPECIFICATION

Model	Machine Dimension in mm	Machine weight in kg	Power Supply	Loading Weight	Sealing Speed	Sealing Width in mm	Temperature Range
GP 900V	875 x 410 x 385	35 Kg	220V 1 phase 50 Hz	5 Kg	0 - 12 m/min	6 - 15	0 ~ 300 C
GP 900H	1030 x 450 x 390	35 Kg	220V 1 phase 50 Hz	5 Kg	0 - 13 m/min	6 - 10	0 ~ 300 C
